The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Pareturn Cartesio Equity - Part I (EUR)

CODIGO ISIN : LU0406591452

This Fund is managed by MDO Management Company S.A.

Objectives and Investment Policy

The investment objective of the fund **PARETURN CARTESIO EQUITY** (the "Sub-Fund") is the long-term capital appreciation through realised gains, offering a substantial protection for its capital. Its objective is to exceed the profitability/risk offered by European equities represented by the MSCI Pan Euro index.

In order to achieve the investment objective, the Sub-Fund will invest principally in equities. The investment levels in equities may vary widely, depending on the market risk, in favour of monetary assets or fixed income.

With the aim of reducing the market risk exposure, the Sub-Fund may alternatively enter into derivatives for hedging purposes.

The Sub-Fund will invest principally in European equities, or in securities which are classed as such, namely medium to large market capitalisation securities. The Sub-Fund will strictly adhere to and control the minimum diversification criteria established under current legislation.

The investment strategy in a reduced number of companies offers greater potential in achieving the investment objective of the Sub-Fund, but it may also increase the Sub-Fund's volatility with respect to the market or other diversified funds. If one or other targeted securities suffers a negative performance, the Sub-Fund may sustain higher losses than if it had invested in a larger volume of the targeted securities.

The geographical distribution of the Sub-Fund's net assets may vary at the manager's discretion, with a maximum of 40% invested in non-European markets. Holdings in emerging markets will be infrequent and subject to a limit of 20% of the Sub-Fund's net assets.

The Sub-Fund may deal in foreign exchange transactions for hedging as well as non-hedging purposes.

Reference currency of the Sub-Fund: EUR.

Recommendation: This Sub-Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Income arising from the Sub-Fund will be reinvested.

The Sub-Fund is suited to investors seeking an appreciation of invested capital on a long term.

The Net Asset Value "NAV" of the Sub-Fund will be determined daily, on each Luxembourg business day ("Valuation Day"). If such a day is a legal holiday in Luxembourg the NAV shall be calculated on the next business day in Luxembourg.

Cut off/settlements: Subscription/redemption/conversion lists are closed at 1.00 pm at the latest on the Valuation Day.

The payment of subscriptions, redemptions and conversions shall be made in the reference currency of the Sub-Fund, category or class of shares within three (3) business days of the calculation of the applicable Net Asset Value.

Risk and Reward Profile

< Lower risk Higher risk >

1	2	3	4	5	6	7
---	---	---	---	---	---	---

Typically lower rewards

Typically higher rewards

The investment policy of the Sub-Fund in equity instruments, emerging markets, fixed income securities is subject to risks, including market risk, currency risk and credit risk.

This risk indicator is calculated using historical data, which cannot be used as a prediction for the future risk profile of the Sub-Fund. Therefore, the risk and reward category shown is not guaranteed to remain unchanged and the categorisation of the Sub-Fund may shift over time. Even if the Sub-Fund is in the lowest risk class you can lose money, as no investments are entirely risk free.

At this time, the level of the risk and reward profile is equal to 5, due to its historic volatility.

The Risk and Reward Profile does not take into consideration the following risks, which can affect the Fund:

- **the credit risk** (which are linked to the debt securities the Sub-Fund invest in);
- **the operational risk** (which may occur due to technical issues for example natural disasters, misunderstandings and fraud);
- **the counterparty risk** (which may occur due to the fact that the Fund might have exposure through contract with third parties);
- **the liquidity risk** (which may occur due to the fact that the level of investments is made in financial instruments that could have a low level of liquidity in some extraordinary circumstances for example in the case of market crash and default of debt claims on issuers side).
