The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

The unfavourable, moderate, and favorable scenarios occurred in an investment of 10,000.00 EUR in the periods [mar 2017 - mar 2020], [ene 2020 - ene 2023] y [mar 2020 - mar 2023], respectively.

The stress scenario shows what you might get back in extreme market circumstances.
