Note 2 - Performance fees

Performance fee is applicable to class "Z" shares only.

The Delegate Manager shall be entitled to receive a performance fee calculated and accrued daily and payable, if any, annually in arrears in respect of each calendar year.

The performance fee shall be equal to 7.5 % of the NAV (net of charges and costs) per share higher than the high water-mark, the high water-mark being the last NAV per share of the previous calendar year (NAV calculated on the last valuation date of each calendar year) where a performance fee has been crystallized. The performance fee will be equal to the performance fee per share multiplied by the current number of shares and no specific adjustment will be applied in case of subscription and redemptions.

The first high water-mark will be the class launch NAV and the first performance fee calculation period will be from the launch of the share class until the end of the calendar year.

The performance fee is calculated and accrued daily but only crystallizes and becomes payable at the end of the calendar year. No performance fee is payable or accrued if the Sub-fund's annual performance is negative.

If during five consecutive calendar years no performance fee has been crystallized (i.e. the NAV per share calculated on the last valuation day of the calendar year is below the high water-mark), the high water-mark shall be reset to the NAV per share as at the last valuation day of the calendar year. This reset will apply to all existing and new investors. Reset in case of losses will not be performed with intervals of less than 5 years.

In case the Sub-Fund is liquidated or merged, the accrued performance fee shall be considered as due, regardless of the performance of the Sub-Fund after such merger.

There is no equalisation mechanism to allocate the performance fee amongst different investors.

Amount and % of performance fees:

Sub-Fund	Share Classes	Fund Currency	Amount of performance fees in Fund Currency	% of the average Net Assets per Share
Cartesio Funds Equity	Class "Z"	EUR	302,022.73	1.22%
Cartesio Funds Income	Class "Z"	EUR	139,836.43	0.37%
